Our Story

It's a **philosophy:**
If our clients grow, we grow.

Established Legacy. Future Ready Vision.

Founded in 1993, Pacific Design House is the creative soul of Pacific Exports & Imports — a design-led, globally trusted export house with over three decades of manufacturing excellence.

With a team of over 2000 skilled professionals and four fully-equipped units across Delhi and Jaipur, we craft high-fashion and textile products for the world's most discerning markets.

Our journey began with an unwavering focus on quality, precision, and relationship-driven growth — principles inspired by our long-standing collaborations in Japan.

Today, our footprint spans France, Germany, Switzerland, Australia, and the USA.

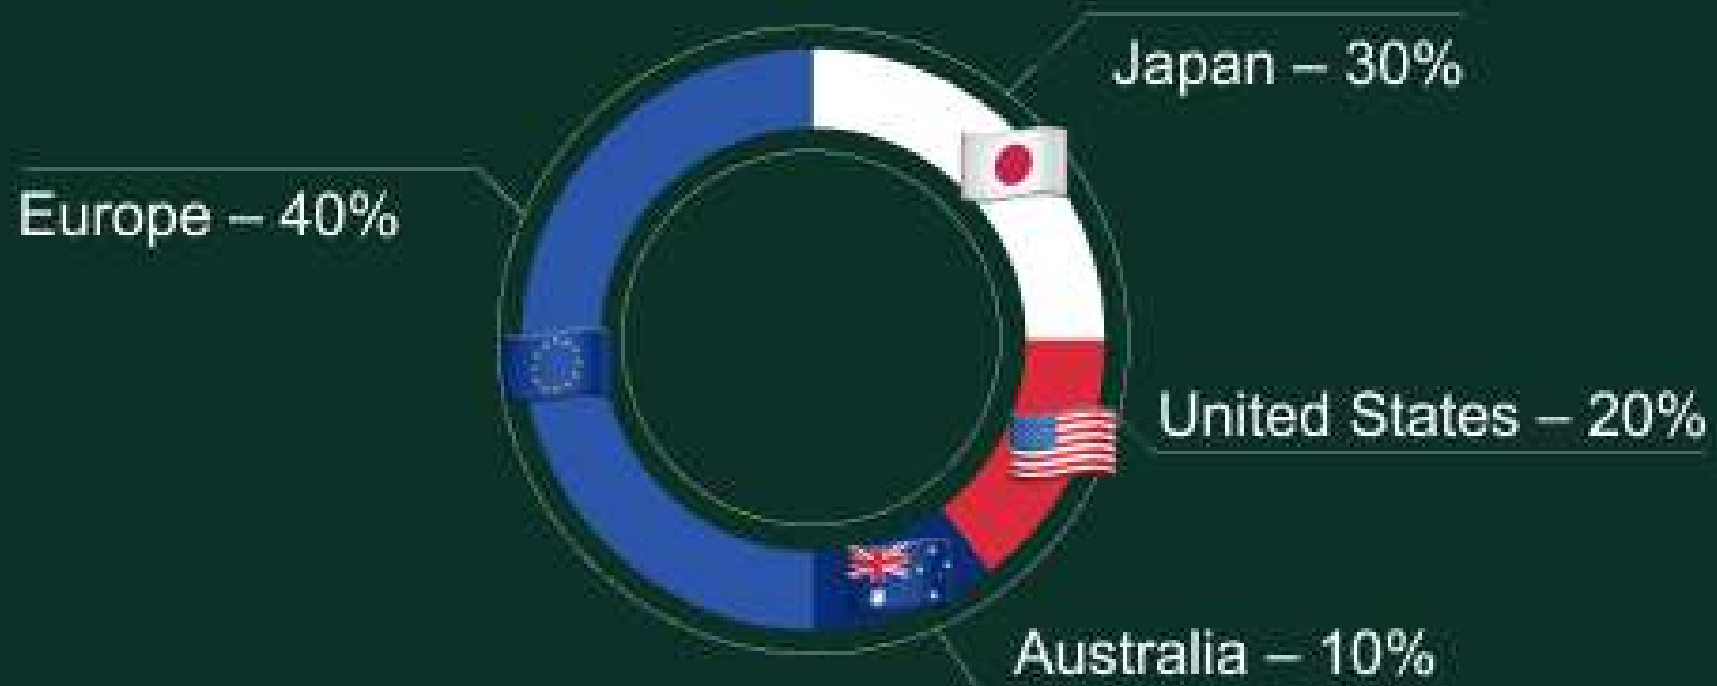

Built across three generations, Pacific is more than a business.
